ell. The President's Proclamation in Full is Given Below. Read It.

ITH THE HOE

in regulations of even date herewith.

"And I authorize and proclaim and give notice to all persons subject to registration in the several states and the District of Columbia, in accordance with above law, that the time and place of such registration shall be between 7 a. m. and 9 p. m., the 5th day of June, 1917, at the registration place in the precinct wherein they have permanent homes.

Those Whom Call Takes.

Those who shall have attained their 21st birthday and who shall not have attained their 31st birthday on or before the day named are required to register, excepting only officers and enlisted men of the regular army, navy, marine corps, national guards, and naval militia, while in the service of the United States; officers in the officers' reserve corps and enlisted men in the enlisted reserve corps, while in active service.

Territories Call Later.

"In the territories of Alaska, Hawaii and Porto Rico, a day of registration will be named in a later proclamation.

"And I do charge those who through sickness shall be unable to present themselves for registration that they apply on or before the day of registration to the county clerk of the county where they may be for instructions, how they may be registered by agents. Those who expect to be absent on the day named from the counties in which they have their permanent homes, may register by mail, but the mailed registration card must reach the places in which they have permanent homes by the day named herein. They should apply as soon as practicable to the county clerk of the county wherein they may be for instructions how they may accomplish registration by

mail.

If Absent or Sick.

"In case such persons, as through sickness or absence, may be unable to present themselves personally for registration and shall be sojourning in cities of over 30,000 population, they shall apply to the city clerk of the city wherein they may be sojourning rather than to the clerk of the county.

"Clerks of the counties and cities of 30,000 population in which numerous applications from sick and from non-residents are expected are authorized to establish such sub-agencies and employ and deputize such practical force as may be necessary to accommodate applications.

Logic of Draft Army.

"The power against which we are arrayed has sought to impose its will upon the world by force. To this end it has increased its armament until it has changed the face of the war. In the sense in which we have been wont to think of armies, there are no armies in this struggle. There are entire nations armed.

"Thus, men who remain to till the soil and men in the factories are no less a part of the army than those in France; than the men beneath the battle flags. It must be so with us. It is not an army we must shape and train for war—it is a nation. To this end our people must draw close in one compact front against a common foe.

One Purpose For All.

"But this cannot be if each man pursues his private purpose. All must pursue one purpose. The nation needs all men, but needs each man not in the field that will most please him, but in the endeavor that will best serve the common good. Thus, though a sharpshooter pleases to operate a trip hammer for forging great guns, and the expert mechanic desires to march with the flag, the nation is being served only when the sharpshooter marches and the machinist remains at his levers.

"The whole nation must be a team in which each man shall play the part for which he is best fitted. To this end, congress has provided that the nation shall be organized for war by selection; that each man shall be classified for service in the place to which it shall best serve the general good to call him.

In No Sense Conscription.

"The significance of this cannot be overstated. It is a new thing in our history; a landmark in every progress. It is a new manner of accepting and vitalizing our duty to give ourselves with thoughtful devotion to the common purpose of us all. It is in no sense conscription of the unwilling. It is, rather, a selection from a nation which has volunteered in mass. It is no more choosing of those who shall serve equally the necessary and devoted purpose in the industries that lie behind the battle line.

A Day To Remember.

"The day, here named is the time upon which all shall present themselves for assignment to their task. It is for that reason destined to be remembered as one of the most conspicuous moments in our history. It is nothing less than the day upon which the manhood of the country shall step forward in one solid rank in defense of the ideals to which this nation is consecrated.

Must Be No Gaps.

"It is important to these ideals (Con. on last page)

The business slacker is just about as detrimental to the country as any other kind. Go ahead with business; don't get panicky and stop the wheels of commerce. Prices may be high, but money is plentiful, labor and all kinds of farm products and materials in great demand. In addition to the billions of dollars to be spent at home by our government in its military affairs, the other countries at war are pouring their gold into our channels of commerce at the rate of many millions daily. Why and wherefore should we become panicky and curtail our business. Go ahead; ride the tide. Every section of country possessing agricultural resources will feel the magic touch of prosperity with the harvesting of crops in a measure never before experienced, and this community should be especially blessed this year. Ours is an agricultural section and every farmer and business man should co-operate in extensive and intensive farming operations on the largest scale possible. There is not the slightest probability of grain and foodstuffs selling at low prices. Cotton, too, has a good value that will make the crop command good money—even if for the seed alone. Raise the crops—push all kinds of business. Don't be a slacker.

MUST BELIEVE IT.

When Well Known Hickman Peo-
ple Tell It So Plainly.

When public endorsement is made by a representative citizen of Hickman the proof is positive. You must believe it. Read this testimony. Every sufferer of kidney backache, every man, woman or child with kidney trouble will do well to read the following:

Jno. Provow, prop. barber shop, 810 Johnson Ave., Hickman, says: "From over working and standing so much, my kidneys became affected and my back gave me a lot of pain. I had sharp, shooting pains across the small of my back and the kidney secretions were irregular in passage. I had to get up at night quite a few times to pass the secretions, which were highly colored and scalding in passage. I used Doan's Kidney Pills whenever I was troubled in that way and I have never failed to be helped by them."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Provow uses. Foster-Milburn Co., Prop., Buffalo, N. Y. Advt.

CRADLE ROLL EXERCISES.

Next Sunday, May 27th, the West Hickman Baptist Sunday School will observe their first annual "Cradle Roll Day."

The cradle roll of this Sunday school was organized April 10th, 1916, with 13 members; it now has a membership of 123 babies. Out of this number, 22 have become three years old since enrolling, 23 are now over 2 years of age, 31 are over one year of age, 24 are under one year of age, 14 have moved away and 8 have died. Twenty-five of these children have Baptist parents, ninety of them have parents who are not christians at all. Mrs. F. M. Gallimore is the much loved and efficient superintendent of this little baby band, and with the assistance of her band of "Little Willing Workers," will gladly welcome and endeavor to entertain all who come. It is hoped that every living baby on the roll, with its parents, will be there. The exercises will begin promptly at 9:45 a. m. Be on hand early so as to secure a seat.

MUSICAL MISDEMEANOR.

Why should the old hymns, the undying expression of the faith of our fathers, be rewritten to meet the advanced ideas of the present hour? If the old faith is dead, let us at least cherish its monuments. To alter the words, "Abide With Me," "Lead Kindly Light," and "Jesus, Lover of My Soul," in order to make the hymns conform with supposedly religious ideals more modern than those of Heber, Newman and Wesley, may not be a sacrilege, but it is a musical misdemeanor which ought not to be tolerated. —Ex.

PRINCIPLES IN SHOE SELLING

Those who buy their shoes here will always find them attractive in price, comfortable in wear, and consistent in service. That's the secret of the success of this store.

You can buy Shoes here as low in price, sometimes lower, than you can elsewhere—quality being equal.

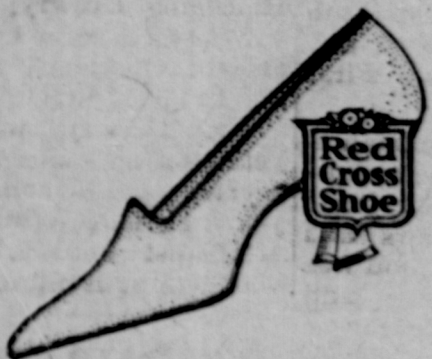

You cannot buy Shoes here of inferior service just because the prices look attractive—they must have a real standard of value.

We firmly believe in these principles as the foundation of our store's growth, and never will anything be allowed to interfere with our policy of giving honest values and proper service to every purchase.

New Torpedo With Ears
Soon to Be Demonstrated Here

MR. WOOD DEMONSTRATING HIS NEW TORPEDO UPON THE CHAUTAUQUA PLATFORM.

THE marvelous torpedo with ears, invented by Montraville Wood, scientist, is to be demonstrated at the forthcoming Redpath Chautauqua here by Mr. Wood himself. It is estimated that within a few months past more than 5,000,000 people have read of Montraville Wood and this new torpedo.

The torpedo is of such size that it can be seen from all parts of an auditorium or chautauqua tent, and as it follows the direction of the sounds created by Mr. Wood a feeling of surprise and awe is notable throughout

the audience. Also at the close of each performance crowds gather about the scientist while he answers multitudinous questions.

Popular Mechanics Magazine, with a circulation of more than 300,000, used a page story, illustrated, in the December issue.

The Illustrated Sunday Magazine, which is used as a supplement to sixteen big city newspapers with a million and a quarter circulation, told of Wood and his torpedo in the Nov. 26 issue. Papers served at that time were the Pittsburgh Gazette-Times, Minneapolis Tribune, Memphis Commercial Appeal, Detroit Free Press, Boston

Herald, Louisville Courier-Journal, Rochester Democrat-Chronicle, Des Moines Register-Leader, Philadelphia Record, Columbus Dispatch, Milwaukee Sentinel, Omaha World-Herald, Worcester Telegraph, Dayton News, Providence Tribune and Buffalo Times.

An entirely different descriptive story about Mr. Wood and his invention appeared Oct. 15 in nine newspapers with a combined circulation of nearly 700,000—Chicago Herald, Pittsburgh Leader, Salt Lake City News, Seattle Times, Columbus Dispatch, Oregon Journal, San Diego Union, San Francisco Chronicle and Los Angeles Tribune.

FULTON COUNTY MEN TO ENLIST AT PADUCAH.

The war department has announced that one month after the passage of the Army Bill, that the regular army should if possible be raised to war strength by voluntary enlistments, and that all enlistments since April 1st would be considered in raising that number. The bill was passed, and signed May, 18, it is considered that the Louisville Recruiting District should furnish from April 1, 1917, to June 18, 1917, 2,474 men by voluntary enlistment.

The Louisville Recruiting District has been divided into six sub-districts. Fulton county is in District "c" along with the following counties, all of which are under the Paducah sub-district: Ballard, Calloway, Carlisle, Graves, Hickman, Livingston, Lyon, McCracken and Marshall.

The Paducah District is asked to furnish 728 volunteers up to June 18. This is over and above those caught in the conscription net.

VOLUNTEERS WANTED.

For the purpose of holding the army registration on Tuesday, June 5, volunteers are desired in each precinct in Fulton county. While only one man is required for each precinct, two registrars or even three are preferable to lighten the work. Those who volunteer will agree to work without pay and their names will be certified to the war department.

If you are willing to so serve your country see me at once and your duties will be explained to you.

On June 5 the books will open at 7 a. m. and remain open until 9 p. m.

Remember that if you are 21 years old and have not attained your 31st birthday you must register.

Respectfully,
BAILEY HUDDLESTON,
Sheriff Fulton Co.

The disappearance of the two Estes boys, sons of W. L. Estes, a fisherman on Island No. 8, ages 26 and 16, is still shrouded in mystery.

Some tangible evidence that they were drowned has been found, with the discovery of two floaters at New Madrid last Friday. In the pockets of one of the victims was found a candidate card with the name of Clarence Henry, of Hickman, on it. The father has gone to that town to have the bodies disinterred and try to identify them. The boys are known to have had \$27.50 on their person when they left home, but the coroner of New Madrid evidently found no money in their pockets. There is a probability that the boys were killed and thrown in the river, as the skull of one of the floaters had been crushed just above the eye.

It seems that these two boys left No. 8 Island about two weeks ago enroute to Hickman in a gasoline launch, with a skiff tied behind it. They started to town for the double purpose of bringing Sam Estridge and wife, who had to attend circuit court, and to purchase a supply of groceries. About even with the Mengel Box Co. plant, their supply of gasoline was exhausted and they landed; Estridge and wife and the two young men walking up town. The boys carried a can to get gasoline and soon returned, accompanied by three other men, according to an eye-witness. Instead of coming on up town to get their supplies, all five got into the launch, started back down the river and were last seen opposite No. 6. No further trace of them can be found. Who the men were with them and why they started toward No. 6 is a mystery.

A gasoline boat has been found at Caruthersville, which probably belonged to the Estes boys. The skiff they carried in tow, was found in possession of a man just below the Mengel plant. He is said to have told Mr. Estes that his wife caught the skiff floating upside down. But Mr. Estes, we are told, claims there was still sand caked in the end of the boat and a stew-pan, used for bailing out water, was also with the boat; which, if it had been turned over would doubtless have been lost.

The money being gone from the boys' pockets, the identity of the three men who were seen with them, the mystery of the old stew-pan in the skiff, the crushed skull of one, their failure to come on to town—all remain to be solved and support the theory of suspected foul play.

The family has resided on No. 8 for three or four years.

FIRST M. E. CRURCH.

Rev. Earle G. Hamlett, will occupy the pulpit at the First Methodist church at 11 a. m., next Sunday in the absence of the pastor, Rev. R. C. Douglass. Mr. Hamlett is one of the most promising young ministers of the Methodist church. It will pay you to hear him.

There will be no evening service and no afternoon service in East Hickman.

A FINE EXCURSION.

About 500 persons enjoyed the moonlight river excursion on the Steamer Sidney at Hickman last night. Many out of town visitors were among the party and all reported an excellent time. The excursion was given under the auspices of the local order of Elks, which, we understood, received about \$60 as their part of the proceeds.

SOME MISTAKES MADE IN THE KITCHEN.

If I had my way I would go into the kitchen of every woman in the land and confiscate her entire supply of washing soda, writes Mrs. Christine Frederick in the Chicago Daily News. That one misused article is responsible for more sore, red hands, more pots with worn-out linings, than any other one thing. I do not exaggerate when I say that in many kitchens washing soda is put into the pots after every meal. Then how can we expect to have utensils that are bright and shiny if we subject them constantly to so strong a chemical?

Washing soda is the crystal of soda ash, a very strong alkali. Washing soda should never be used in a solid form, but should be dissolved separately and the solution be used sparingly. When I say that two table-spoonfuls of dry soda are sufficient for a large tub of water, you can readily see why "a handful of soda" is absurdly too much to use in a poor, harmless kitchen utensil.

If foods are cooked with care there need be no scorching. If no scorching then the particles which adhere to the bottom and sides should be easily scraped off with a round-pointed flat wooden paddle, and not a metal instrument. If one is so careless as to scorch a utensil, plain water will dissolve the food as well as any water with soda.

Now as to actual cleaning: Our modern pots are made either of enamel, aluminum or retinned ware. In any case, the outside should never be scoured with an alkali. Enamel is the easiest to keep clean of the three because of its chinalike surface. The worst thing we can do to enamel ware is to let a soda solution soak into it, as this eats off the porcelain and lessens the life of our pot.

So many say to me: "Oh, aluminum ware is so hard to keep clean!" In my own home we have used aluminum for three years and it is still bright and silvery looking outside. The inside of some pots has become discolored through cooking certain foods. All we ever use on aluminum is white soap and water daily, and then we polish it weekly with a good silver polish. No alkali or powders such as are on the market and commonly used should ever be allowed to touch aluminum, as it is the alkali in the water that turns the aluminum dark.

Never rub an entire cake of cleanser on a pan or utensil, as this makes scratched and streaky places. Scrape or use a very fine powder with as little and as possible in its composition, and apply preferably with a soft brush rather than a rag, which is an unsanitary procedure. There are special "pot brushes" on the market with bristles that look like a lamp chimney brush, also a very good kind made of corn fiber in compact, squat shape which could be easily scoured on the inside of the pot. It is a great mistake to use metal pieces and scrapers on any kind of a pot, except a frying pan, which is iron and can stand it.

Dump heaps with monuments of enamel pans, and rubbish piles with discarded utensils would be smaller if more housewives exercised a little common sense in the cleaning of pots and kitchen utensils.

Dainty Cocoa Wafers.

One cupful of sugar, one table-spoonful of cocoa, a small lump of butter, one-third cupful of milk. Boil until it forms a soft ball when tried in water, then put in flavoring and beat until it thickens enough to spread. Spread between crackers and spread the tops with the mixture. After they are cold put a marshmallow on top of each, and place in the oven to brown. The oven must be hot enough to brown the marshmallows before the filling melts.

Chopped dates or nuts may be added to the filling after taking it from the fire.

Mutton Cutlets a la Italienne.

Cut off cutlets from the best end of a neck of mutton, trim them, and remove all superfluous fat. Make a seasoning of finely chopped mushrooms, bread crumbs, chopped parsley, a sprinkle of mixed herbs, a little shredded shallot, and a grate of lemon peel. Dip the cutlets in egg, then mask them with the mixture, dip them in egg and bread crumbs and fry them. Drain them on kitchen paper, place them on a hot dish round a mound of mashed potato, and pour a well-flavored brown gravy round them.

Lyonnaise Eggs.

Peel and chop fine two medium-sized white onions and cook them gently in quarter of a cupful of butter until they begin to color. Stir in one table-spoonful of flour, then add gradually one cupful of hot milk, chicken or veal stock, and stir until smooth and thick. Season with pepper, salt and a speck of powdered mace; add six hard-boiled eggs cut lengthwise into quarters, heat thoroughly, turn out carefully on squares of buttered toast, sprinkle with chopped parsley and serve at once.

Tea in Your Starch.

When starching holland pinafores put a little strong tea into the starch. This keeps the garments in good color.

We are told that Hamby Pond, and probably some other small bodies of water in the lower end of this county, is being netted. This is in violation of law and a heavy penalty will follow the conviction of any person so fishing.

Notice to Water Consumers

On and after June 1, 1917, no sprinkling will be permitted without a sprinkling contract. Failure to procure a contract will result in water on your premises being cut off without notice.

We trust our customers will appreciate the necessity of curtailing the expense resulting from a waste of water, and govern themselves accordingly.

Sprinkling rates may be had at the office; also contracts covering whatever sprinkling privileges desired. Please call on or before the above date and make such arrangements as you desire, as we do not want to be forced to cut off your water supply.

WIDOW OF H. BUCHANAN DIES IN NEW JERSEY.

Mrs. Lucy Buchanan, widow of the late Henry Buchanan, died at Ashbury Park, N. J., at nine o'clock last night. Cancer of the stomach caused her death. She was 88 years and 6 months of age.

The remains will be brought to Hickman for burial; funeral services to be held at the First Methodist church.

Mrs. Buchanan left Hickman about six years ago, after her husband's death, to make her home with his relatives—nephews and nieces at Belmar, N. J., and was one of our oldest citizens and most loved women. The couple had no children.

T. W. DREWRY DEAD. ONCE LIVED AT HICKMAN.

Theo. W. Drewry, a former resident of Hickman, died at his home at Kenton, Tenn., Thursday night, following a short illness. Deceased was a farmer and left this section 12 or 15 years ago. He survived by one son, Holcombe Drewry, of Hickman; two sisters, Miss Carrie Drewry, also of Hickman; and Mrs. Fannie Prather, of Obion county.

Mr. Drewry was about 70 years of age and a highly respected gentleman. For many years he had affiliated with the Methodist church. The funeral was held at Kenton.

Unique Memorial Completed

Mary Baker Eddy Memorial, Mt. Auburn Cemetery, Cambridge, Mass.

The beautiful memorial to Mary Baker Eddy, the Discoverer and Founder of Christian Science, has been turned over to The Christian Science Board of Directors by Elbert S. Barlow of New York City who held the contract for its construction.

The memorial, which is at Mt. Auburn cemetery, Cambridge, Mass., has required over a year and a half to complete. The fund for its construction, amounting to over \$150,000, was first announced by the directors in June, 1911, and was some time ago fully subscribed. These contributions have been made as expressions of sentiment by Christian Scientists throughout the world.

The site on which the memorial is located is not only one of great natural beauty, but on account of its grade has rendered possible a more picturesque and interesting treatment architecturally than would be possible on a perfect level lot. The plot, which is approximately 80 feet square, slopes gradually from the level of the roadway to the lake with a drop of about ten feet. The memorial consists of a circular open colonnade of eight columns, resting upon a stylobate of three steps, surrounded on the front by a circular platform slightly above the natural grade, from which platform a double flight of steps leads

to a lower platform at the lake's edge. The scheme has no prototype and is merely a screen of columns open to the sky, inclosing a flower-grown circle.

The material used for the memorial is Bethel white granite, the inscription in the frieze and upon the top of the pylons being of white bronze set deep into the stone work. The detail, which on account of the size of the reproduction is only indicated, is entirely floral in form and free in treatment, the wild rose and the morning-glory being used as the main motives. It is interesting architecturally to note that while it is extremely free in treatment and not at all conventional, it is generally very classic in feeling. The extreme width of the memorial is about fifty feet, and the colonnade is eighteen feet in diameter. The columns themselves are fifteen feet in height and are similar in general character to those in the Clepsidra of Andronicus of Cyrrhus. The large pylons were exhibited at the American Institute of Architecture in New York a short time ago and experts pronounced them the finest pieces of carved granite ever executed.

The architect is Egerton Swartwout of New York City who designed the new George Washington memorial, the new Missouri state capitol and the new Federal building in Denver.

**CLUB LADIES COMING TO
HICKMAN THIS AFTERNOON.**

The Federated Women's Club of Kentucky, holding a convention at Fulton this week, will be given an auto ride from Fulton to Hickman this afternoon, and will be welcomed and entertained at the Court House yard by the ladies of Hickman. Refreshments will be served. There are said to be about 100 ladies in the party.

CARD OF THANKS.

I wish to thank all friends for their kindness and assistance in my recent bereavement, and assure you that it will never be forgotten. May God's richest blessings be yours.—H. C. Amburg.

People who do not take their county paper would feel very much hurt if the paper should decline to make mention if death should enter their homes and take away their loved ones or fail to deal out "puffs" when a little complimentary notoriety is in order. But no greater duty rests upon the paper to mention these things than it does upon the individual citizen to patronize the paper. If people want to be treated fairly by the paper, they should be willing to "come clean" with the paper. It costs money to run a paper now-a-days—and space is the newspaper's stock in trade.

**KENTUCKY COTTON FARM
RAISES GRAIN THIS YEAR.**

C. T. Bondurant's half of the "finest cotton land in Kentucky" is going to get a rechristening this year.

Mr. Bondurant is not sore at the south's "king crop."

Rather, he's just going to give the king a queen. Seven hundred and fifty acres on Mr. Bondurant's 2,000-acre farm are planted in wheat this year and the stock is up 2 1/2 feet, as fine looking grain as ever grew in Minnesota, Iowa or the Dakotas. This is going to be a "feed yourself" year on the Bondurant place, near Hickman. Present condition of the crop indicates that it will thresh out between 35 and 40 bushels to the acre, which, with wheat above the \$2 mark, will be just as satisfactory a result as cotton ever hoped to be.

The remainder of Mr. Bondurant's farm is planted in cotton. Every year before this it has been entirely planted in cotton. But the "feed yourself" doctrine took hold early with this planter, and his food farming this year will be done with modern machinery, including tractors, gang plows, reapers, threshers and similar equipment, just as he used the latest machinery in his cotton production.

Good work spreads, and Mr. Bondurant's example has not been without its effect on his neighbors.

With his tenants, too, he has planted even the fence corners in potatoes, beans and other food products, allowing only the path and roads for hauling and travel through the farm to remain unproductive.

Master Richard Prather entertained a few of his friends Friday evening from 8 to 11. Many games were played and music on the Victrola was enjoyed. At the close of the evening cream and cake were served. Those present were Misses Anita Dodds, Lucile Barnes, Lucile Hendrix, Annie Russell Moore, Annie H. Ellison, Cyrl Peek, Thela Barnes, Mary Hardy and Annie Carr Ligon, Christine Smothermon, Inez Housley, Ruth Barrett, Helen Rice, Eva Adkisson, Bessie Jean Douglass, Virginia Seay, Oma Shaw, Messrs. Harry Walker, James Lee Bondurant, Kent Hamby, Errett Patterson, Gerald Brown, John Harper, David Oliver, Roger Burrus, Harold Rice, Erle Ezell, Will Allen, Henry Binford, Cecil Roper, Harry Barnes, Word Harper, Drewery Bondurant and Raymond Clark. Out of town guest, Miss Mary Prather, of State Line.

Rev. H. M. Crain will return from New Orleans the latter part of the week and conduct the regular preaching services at the First Baptist church Sunday.

Mr. Sragle, of Louisville, division manager, and G. O. Stewart, of Fulton, were here Tuesday on business with the Kentucky Light & Power Co.

News Snapshots Of the Week

While the world waited Chancellor von Bethmann-Hollweg told the reichstag that the time was not ripe for another move for peace on his part. Democracy in Russia was put to a severe test during the past week and resulted in the resignation of Foreign Secretary Milukoff and a coalition cabinet in which the people are more fully represented. The American mission to Russia, headed by Elihu Root, contains, besides others, General Hugh L. Scott, chief of staff of our army. Following his wonderful reception in New York, Joffre visited West Point, Boston and Canada, where he was given further ovations. With startling suddenness came the death of Joseph H. Choate, former ambassador to Great Britain; the strain placed on him in caring for Foreign Minister Balfour during his visit to New York was too much for him. Signor Ariotta, head of the Italian commissioners who arrived in America unannounced, says Italy needs tonnage most.

CHICAGO IN SUMMER

Combines All Resort Features

Also Alluring from a Metropolitan Point of View

THE LOOP This district is of absorbing interest with its skyscrapers, animated streets, fascinating retail stores and other features. Theaters, amusement parks, movies, band concerts and two major league baseball clubs.

BEACHES With beaches, waterline horizon and surf it has features the same as at an Atlantic resort. Scattered along the shore of the residence district are many fine and extensively used bathing beaches.

THE PARKS The parks and boulevards are beautiful and include three extensive groups and a large number of community parks and playgrounds. Supplementing them for the out-of-doors life is the Municipal Pier with its large area for recreation and gatherings.

GOLF-AUTOS There are fine golf courses in the parks and many in connection with the country clubs scattered over the savans of the city. The fine roads of the parks, connecting boulevards and adjacent country furnish unsurpassed opportunities for automobilism.

LAKE TRIPS Chicago is the leading port for various lake trips in many directions, the trips varying from local excursions to a tour of the chain of Great Lakes.

CLIMATIC Conditions favorable for sightseeing, recreation and rest. Cool breezes from off the Great Lake. Sunshine predominates.

DRUNKARD'S LONE CHILD.

Out in the gloomy night sadly I roam;
I've no mother now; no friends,
no home;
Nobody cares for me; no one would cry,
Even if poor little Bessie should die!

Barefoot and tired, I've wandered all day,
Asking for work; but I'm too small, they say.

On the damp ground I must now lay my head—
Father's a drunkard and mother is dead!

Mother, oh! why did you leave me alone,
With no one to love me, no friend and no home?
Dark is the night, and the storm rages wild—
God pit Bessie, the drunkard's lone child!

We were so happy till father drank rum;
Then all our sorrows and troubles begun;

Oh! If some temperance fanatic only could find
Poor, wretched father and speak very kind;

If they could stop him from drinking, why, then,
I would feel very happy again!

Is it too late? Men of temperance, please try,
For poor little Bessie will soon starve and die;

All the day long I've been begging for bread—
Father's a drunkard and mother is dead!

WATSON GETS PROOF.

Luther Watson, formerly of Hickman but now of Barlow, Ky., was in this city for a week-end visit with relatives; also, to procure signatures to a statement averring that he "did not drink up two fortunes and lay around Hickman drunk for fifteen years." Mr. Watson is a candidate for assessor of Ballard county—and a fellow never knows really what a crooked career he has moulded for himself until he runs for office—and it has been told that he about the worst fellow outside the Wickliffe jail. For this reason he was anxious to nail the lie while there was yet time, and succeeded in getting several hundred signatures stating the above report was not true. The five other fellows in his race will not be over-joyed when he publishes the statement and list of names but it should clear up his good name. As a matter of fact we've never before heard of Mr. Watson of having possessed two fortunes—if he had, he might not now be a candidate for office.

DON'T LET YOUR COUGH HANG ON.

A cough that racks and weakens is dangerous, it undermines your health and thrives on neglect. Relieve it at once with Dr. King's New Discovery. WERE BEATEN TO DEATH.

Additional information regarding the tragic death of Stanley Miller and Paff Hawkins, who were killed by bandits in the Dominican Republic on May 15, is contained in a later report from the Central Romana Co. This company employed the three Kentuckians as civil engineers, and Miller, Hawkins and Pullman were in camp near the town of La Ramona when they were set upon by a band of outlaws in the night of May 15.

A desperate fight ensued. The Kentuckians, largely outnumbered, did their best to defend themselves, and fought at great odds until exhausted. According to the reports at hand, Pullman, in some manner, succeeded in making his escape. His companions, however, were less fortunate. They were said to have been dragged to a nearby tree, securely tied and beaten to death by the bandits.

Efforts are now being made to recover the bodies of Miller and Hawkins; to bring about the capture of the bandits; to obtain definite information regarding the tragedy, and to learn of the reported safety of Pullman.

The first report stated the bodies of the two men had been burned, but this may have been a mistake.

As stated last week, Mr. Hawkins was until a short time ago a citizen of Hickman; also Fulton county's first highway engineer and a good one.

LIFT YOUR CORNS OFF WITH FINGERS.

Tells How To Loosen A Tender Corn or Callus so it Lifts out Without Pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lock-jaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn or callus the soreness is relieved and soon the entire corn or callus, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callus without inflaming, or even irritating the surrounding tissue or skin. A small bottle of freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callus. If your druggist hasn't any freezone he can get it at any wholesale drug house for you. Adv.

American consumers will have to deny themselves canned beans and canned soups for a time under a decision of the War Can Committee which cuts off the supply of cans to packers of those goods. Some of us habits wish the order might also have included paper sacks.

"The Crisis," filmed from the popular novel by Winston Churchill of Civil War days, is finely constructed and excellently directed. The tragic elements of the story are overdone by the typical Southern love romance that dominates in the play.

With a few exceptions, this war will be fought by the poor men. Therefore, with limited exceptions, its costs should be paid by the rich men. Fight or pay, should be the rule—but not both.

Ain't she ridin' fine though boys? Slips along without a noise. See me hit that farmer's dog? Felt like he had been a dog. Dogs should keep themselves inside when a feller wants to ride. Clippin' now at sixty-two. Think it's fast enough for you? Gosh, we almost hit that car, bet he thinks we're going far. Wonder how he likes to eat the dust kicked up by this gal's feet. U. S. FORCES TO FRANCE SOON AS PRACTICABLE.

President Wilson Friday night ordered an expeditionary force of American troops to the trenches in France. In signing the conscription bill, which provides for the recruiting of an army of 500,000 men by selective draft, the President rejected the volunteer divisions offered by Theodore Roosevelt for service in France and directed the war department to prepare a force of 25,000 regulars for immediate dispatch to the battle front. They will be the flower of the army and will be led by Gen. John J. Pershing—"Black Jack."

The sentimental expedition is the direct result of representations of Marshal Joffre and Vice Premier Viviani, of France. It had been opposed by the general staff of the army.

The army law provides for an ultimate force of approximately 2,000,000 men to back up the first troops to go to the front. When the bill had been signed, the President affixed his name to a proclamation calling upon all men in the country between the ages of 21 and 30, inclusive, to register themselves for military service on June 5.

The proclamation sets in motion immediately machinery that will enroll and sift 10,000,000 men and pave the way for the selection of the first 500,000 young, efficient soldiers without crippling the industries or commerce of the nation or bringing hardship on those at home.

Even before the bill was signed the war department announced that the full strength of the national guard would be drafted into the United States army, beginning July 15 and concluding August 5. Orders to bring the regiment to full war strength immediately accompanied the notification sent to all governors. A minimum of 329,000 fighting men will be brought to the colors under these orders, supplementing the 293,000 regulars who will be under arms by June 15th.

IN MEMORIAM.

"Lonely now in dreary darkness On the bleak and silent shore, Takes his burden for a pillow Falls asleep his labors o'er."

Such was the passing of Jas. Carroll Newton from earth to the eternal beyond, who departed this life May 14, 1917. All intimate friends and those who were associated with him could not doubt that, as his spirit waited gently on snowy pinions his journey ends only at the gates of everlasting joy.

Mr. Newton was 64 years old, being born Sept. 25, 1852, near this place. He has also made his home at and around here most of his life.

In 1883 he was married to Miss Bell Buckhamon, of Millersville, Mo., who survives him. He is also survived by seven children, three boys and four girls; Dan and Charlie, of this city; Ben of Dyersburg, Tenn.; Elizabeth, Florence, Ruth and Vivian, are left at home with their mother. Two brothers and two sisters survive him, Ely Newton, of Lepanto, Ark.; Jack Newton, of Hickman; Mrs. Georgia Allen and Mrs. Sophia Curbish, of Tipton, Tenn.

Deceased lived for forty-two years a consecrated christian life, having become a member of the Christian church at the age of twenty-two. For several years he was in the retail grocery business in East Hickman, and in connection handled a line of scrap material and was closer in touch with the public than most any other business man in the vicinity. His open hearted friendly nature won for him hundreds of friends and his economic and conservative business principles

won the respect and admiration of all who came in touch with him. His daily life was beauty in itself, love was his watch word in his home. In storm he was oak and rock, in sunshine he was vine and flower and should every hand whose heart has been cheered with his sunny smile, place a tiny little blossom on his grave, he would sleep neath miriads of flowers tonight. A great soul has passed to its reward. And to say he is missed, is to say the least.

To the heart-broken relatives we say that the entire community mourns with you the loss of a noble, brave and true husband, father, brother and friend.

Yet in the darkness of your sorrow there is sweet consolation in the Master's words, "He is

GOVERNOR ASKS UNITED EFFORT IN FULTON COUNTY.

The following letter from Gov. A. O. Stanley was received this week by Syd. L. Dodds:

My Dear Sir:—For many months we have unfaltering supported the President in his long suffering patience, and his earnest hope that this "cup might pass from us;" that a peace-loving and unoffending nation might not be drawn into the bloodiest conflict of the ages.

We have carried submission to wrongs, repeated and unprovoked to the point of national humiliation. The Central Powers of Europe, dominated by a ruthless military despotism, deaf to our protestations and entreaties, have persisted in the wanton and arrogant destruction of American life and property, at last declaring it to be the fixed policy of the Imperial government and its allies, to drive us from the high seas no matter how peaceful or necessary our mission there, and in utter disregard of the fact that they have been since dawn of civilization the common property of all the nations of the earth.

This denial of the right to enter or use the markets of the world is, as the President has truly said, in itself a declaration of war, an invasion of our sacred and long established rights, as wanton and insufferable as if they had bombarded our cities or invaded our territory.

As much as we desire peace with all men, we will not purchase tranquility at the price of base submission to unprovoked outrage or national dishonor.

In carrying into effect the pertinent suggestions of the President and of congress, I have endeavored to perfect a council of National Defense. Reposing implicit faith in your patriotism, your energy and ability, I have designated you as a member of that honorable body. This commission imposes serious duties and grave responsibilities which I am sure you will not at this crisis in our country's history hesitate to assume.

We are called upon not only to participate in the armed conflict, but to feed and finance our allies, bled white by a protracted and heroic struggle which has decimated their armies and devastated their lands. We are called at once to work and to war. We must feed the world, while recruiting its armies. It is indeed a stupendous task, the price fate has demanded for the maintenance of national independence. You and your associates are earnestly requested to proceed without delay:

(1) To organize your county by precincts or other convenient districts.

(2) To aid and assist in the immediate planting of every available foot of arable land in such food stuffs as may be required by our own people or our allies, such as corn, potatoes, beans, etc.

(3) To co-operate with the Agricultural Branch of the Council of National Defense in encouraging the economical use of these food stuffs and the conservation and preservation of fields and garden products in excess of your own essential needs.

(4) To aid in preventing the sacrifice of immature and brood animals and to encourage the increased production of stock and poultry of all kinds.

(5) To encourage the floating of "Liberty Bonds" and other forms of indebtedness issued by the Federal Government and which must, in no small part, be absorbed by patriotic citizens of limited means.

(6) To impress upon the people that the Selective Draft Bill, shortly to be enacted, should not be regarded as a coercive measure, but the means adopted by congress to render available the willing service of our brave boys. Registration day is not a time of compulsion but of opportunity. Every young man of military age should remember that in hastening to record his name as directed, he is indeed rallying to the colors, as did his martial sires who made the freedom we enjoy possible only by their willing and splendid sacrifice.

I shall, to the utmost of my strength and ability, co-operate with you in this noble work, and in advance, express on the part of the state your service, its profound appreciation.—A. O. Stanley.

"THE STORE THAT LEADS"

appeal, Mr. Dodds addresses the following letter to the people of Hickman and Fulton county:

Above is a letter from Gov. Stanley in response to a request of our President, Woodrow Wilson.

I ask you to read this letter of Governor Stanley's very carefully and make a study of it, as I too feel that we people are not taking this war seriously enough and that everyone, it matters not whether he be white, black, male or female, young or old, should lend every assistance that he possibly can to the aid of our government.

Assistance does not necessarily mean that you will be called upon to volunteer, pick up your gun and enter the ranks, as a soldier, but you can be of assistance in divers ways. One thing which everyone can do is to stop any waste or extravagance, especially in food, as there could be thousands upon top of thousands of people fed with the waste that is now going on in our country in foodstuffs alone.

Never before in the history of our country has there been such a scarcity of crops, and anyone who owns even a back yard should plant it in something and strive to feed somebody. Every acre of ground, whether it be on a farm, vacant lot, ball park, etc., should be planted in something to go towards feeding and clothing our people, and by doing this you will materially decrease the high cost of living. Along this line I call your attention to paragraph No. 2 of Governor Stanley's letter, and I might add that cotton also cuts quite a figure, not only in the clothing of our people, but the seed products furnish one-third of the entire food products of our country, so don't feel when you are planting cotton that you are not doing your part, as we should raise enough cotton to try to reduce the

values of clothing and for seed which is consumed as food products.

I also call your attention to paragraph No. 4 which has been sadly neglected in this county, and in this connection I will say that a newly "city" married couple, who are just starting out in life, ought as one of their first purchases, a pair of pigs, which they figure they can turn their waste, slop, etc., from their kitchen into the production of enough meat to run them for a year.

Referring to paragraph No. 5, everyone that can get together as much as \$50.00 and upwards should buy some of the Liberty Bonds. In this way you not only aid our government, but all of our allies, as it is a conceded fact that all the world is looking to the United States for money, to successfully win this war. These bonds will draw 3 1/2 per cent interest, are not taxable, and it would astonish you what your savings would amount to in a few years if invested in this manner.

Call on either of your banks and they will take pleasure in procuring them for you.

If every person would put his shoulder to the wheel and try to do something, it matters not how small, it will be one of the greatest deeds one could now possibly do.

Coming Here Chautauqua Week

Lieutenant Donald H. McGibney of the American Ambulance Corps on the French Front, to Speak on Opening Night.

THIS is patriotic year in Redpath circles. Vivid, thrilling are inadequate words to describe the narrative of personal experiences of Lieutenant Donald H. McGibney in the great war. This lecture takes one to the very center of the titanic struggle. He became a lieutenant in the American ambulance corps. There his duties called him to the very center of the

maelstrom of fire. His lecture will be illustrated by stereopticon slides made from photographs taken by him at the front in France.

His account is so amazingly convincing that no audience can remain unmoved. The pulse is quickened, and a thrill of patriotic enthusiasm runs through the heart of every man, woman and child in the great tent.

Endurance—the Supreme Tire Quality

United States Tires have proved that they have that supreme quality,

—that miles are packed into their structure the way endurance is packed into steel.

A vast number of the motoring public know that by experience,

—and they have answered in the only way that the buying public can answer,

—by giving United States Tires tremendous sales increases,

—sales increases that are vastly greater than even the sensational increase in the number of automobiles this year over last.

Editor-Lecturer, Who Is to Speak Here Chautauqua Week

CHARLES L. FICKLIN, who is to lecture on the Redpath Chautauqua program here, is an editor and lecturer who speaks as he writes—clearly and with force.

The Chautauqua has a new figure with new ideas in Mr. Ficklin, a pioneer in the philosophical field who in blazing his trail is not afraid to strike into regions off the beaten path and whose ax cuts deep.

Ficklin makes his hearers think. But he makes them laugh as well. His lectures are the result of nearly a

CHARLES L. FICKLIN.

score of years of aggressive newspaper life, where he has met all classes of people with all sorts of problems—problems with which he himself has been wrestling for years. His listeners know they are dealing with a man who has lived his lectures.

His lecture "Men and Machinery" is a journey into the realm of the worker to ascertain whether under the present industrial system man owns the apparatus he has built up or whether he is a tool of the social machinery.

His researches into the relative influence of heredity and environment are alive with questions with a new angle to them. Mr. Ficklin has the rare ability of looking at life from the standpoint not usually taken. He discusses his questions fairly. He dodges no issues. He strips away the externalities and hews to the line and deals with fundamentals. His lectures are for men and women with red blood in their veins.

MOB VISITS FULTON JAIL, NEGRO HANGED.

At an early hour Sunday morning a mob broke open the city jail at Fulton, and carried Lawrence Dempsey, a negro held for the attempted murder of Clarence Dublin, an Illinois Central watchman on May 9, and hanged him to a telephone cable about three feet from the jail. The mob went about their business in a quiet manner. No one has been found who saw them do their work. Night officer Walter Shupe discovered at 3:15 a. m. that the jail had been broken open and the negro gone. Entrance was gained by taking a four inch iron pipe about eight feet long and battering the lock off.

Coroner H. C. Barrett, of Hickman, County Judge Stahr and County Attorney J. W. Roney held an inquest over the body, the jury being composed of Roy Sawyer, Henry Richmond, Wess McCuan, A. S. Harris, Geo. Jones and F. C. Shoate. The following verdict was rendered: "Being advised from the evidence do adjudge that said Lawrence Dempsey came to his death by being hanged by the neck by unknown parties, cause of same being unknown."

Dempsey was caught at Greenfield, Tenn., Friday night and brought to Fulton the same night and was carried to Paducah and identified by Dublin. Mr. Dublin died Tuesday morning at the Paducah hospital. Besides a wife he leaves four small children to mourn his loss.

There is not a shadow of doubt that this is the negro who cut Dublin. When he attacked Dublin he lost his hat, coat and vest, and these were sent to Greenfield and 17 white people swore that they belonged to the negro. A negro who claimed to be Dempsey's brother-in-law called Chief of Police Eaker Saturday and said he would testify that Dempsey attacked Dublin and that he saw him just after the act was committed and Dempsey was bare-headed and without coat or vest. When Dublin searched the negro he found a peculiar shaped razor on him and when the negro was caught it was found on him. Dublin found the negro in a box car on May 9 and after searching him turned him loose. As he walked away the negro attacked him from the rear and cut a gash about five inches long and an inch deep in his neck and also cut him several times on the body and was holding him so he would bleed to death, but was frightened away by an employee who was going to work. Dublin is in the Illinois Central hospital, at Paducah, in a serious condition. Judge Gardner has said that he will have a grand jury investigate the matter that he will go to the bottom of it; and that if he could not get any one in Fulton county he would send to another county.

Coroner Barrett has the 30-foot rope, with which the hanging was done, at his store. The knot and noose indicates some one around Fulton certainly knows how to make a hangman's knot.

Mr. and Mrs. Frank Fleming, of Kansas City, Mo., are visiting her sister, Mrs. W. A. Naylor, and brother, Clarence Reed.

WHAT IS NATURE OF LIBERTY LOAN BONDS?

There are two kinds of Liberty Loan Bonds. Bearer bonds are to be issued in denominations of \$50, \$100, \$500 and \$1000. These Bearer Bonds, which are made payable to bearer, have interest coupon attached which are detached by the holder when the interest installments they represent are due, and can be cashed at any bank the same as a United States Treasury note.

Registered bonds are to be issued, which are registered as to both principal and interest, in denominations of \$100, \$500, \$1000 and \$100,000; checks for the amount of interest due will be mailed out semi-annually to the holders of these registered bonds.

The first issue of \$2,000,000,000 is to bear date of June 15, 1917, and to run for thirty years, except that the government reserves the right to pay them fifteen years after date. If this right is not exercised by the government fifteen years from date, the bonds will run the full thirty years.

These bonds bear interest at 3½ per cent per annum, and the interest is payable semiannually on the fifteenth day of December and the fifteenth day of June in each year. They are nontaxable. Blank forms of application for the purchase of these bonds can be obtained from the Treasury Department, any Federal Reserve Bank, any National, State or private bank, and at either of the Hickman banks will gladly give you any information you may want concerning them or make purchase for you.

Every American who subscribes to the belief that an American should stand by his or her country should subscribe to the Liberty Loan Bond issue.

Muscle Soreness Relieved.

Unusual work, bending and lifting or strenuous exercise is a strain on the muscles, they become sore and stiff, you are crippled and in pain. The modest building pictured here housed the first bank with which the American government had any official connection, and from this small beginning has grown up the vast system of banking in this country.

Of that system this bank is a part, and it is that part which best represents the banking facilities of this community. It offers to our people the same opportunities that larger institutions offer the people of larger communities.

A savings deposit with us means a safe, money-earning investment for you. It means the beginning of a habit that will become a pleasure as you watch your account grow.

The Triumphal March of

A NEW CREATION OF SCIENCE AND NATURE

WHEN we announced Bevo recently, our hopes were high. We knew that we had the most unusual soft drink that had ever been offered: A beverage combining the nutritive extracts of wholesome cereals, the zest of Saazer Hops, a flavor all its own and absolute purity. We knew this because, true to our own ideals, we had experimented for years before we were satisfied to say, "We offer you Bevo—it is a different soft drink—it is good and it is good for you."

High as were our hopes for its reception, we have realized them far and beyond our expectations.

Bevo today is an established popular success. Everywhere the same question is asked:—"Have you tried Bevo?"

Now, one final word. We promise you that, in accord with the known principles of Anheuser-Busch and all its products, Bevo not only will forever maintain its present high standard of quality, but as time goes on our great endeavor shall be to make this soft drink even more perfect in every detail of its goodness.

You will find Bevo at inns, restaurants, groceries, department and drug stores, picnic grounds, baseball parks, soda fountains, dining cars and other places where refreshing beverages are sold.

Guard against substitutes. Have the bottle opened in front of you, first seeing that the seal is unbroken and that the crown top bears the Fox.

FULTON TO ENTERTAIN
EPWORTH LEAGUERS.

The Memphis Conference Epworth League conference meets this year with the Methodist church, at Fulton, June 19, 20 and 21. The names of all delegates should be sent to Dr. J. C. Seruggs, Fulton, in order that entertainment may be provided. Among the features of the conference will be the Memphis Conference Quartette, composed of Revs. J. J. Thomas, of Memphis; A. C. Bell, of Union City; G. T. Sellers, of Trimble; and F. H. Cummings, of LaGrange. The indications are that the attendance will break all previous records and the program is the best yet offered.

Catarhal Deafness Cannot Be Cured
by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarhal deafness, and that is by a constitutional remedy. Catarhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or ringing in the ears, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarhal Deafness that cannot be cured by Hall's Catarrh Medicine. Circulars free. All Druggists. See P. J. CHENEY & CO., Toledo, O.

PAPERS WE ADMIRE.

There are two newspapers published in West Kentucky and Tennessee that we admire, not only for their excellent news value, but for neatness and make-up. We refer to the Union City Commercial, Marshall & Bard, publishers, and the Hickman Courier, Spear & Sexton, publishers. These publications are a credit to the newspaper fraternity and show that little artistic touch which is essential to the printing we all admire. The publishers are not only newspaper men of the higher class, but experienced in the art of printing, employing only competent help—men who take pride in their work. No, this is not an advertisement. The spirit just moved us—the same as when you attend a great revival meeting. It is an expression of the editor, printed with the hope that other publishers may take notice and be stimulated to a realization to wake up with a little pride and give the reading public a neater paper.

Evidently moved by a generous impulse to scatter sunshine and roses along the pathway of his co-workers, our vaunted friend and Prince of Good Fellows, Editor R. S. Williams of the Fulton Daily Leader, printed the above editorial in his Friday issue. He has, of course, greatly exaggerated and over-estimated the value of the Courier; but we consider it no small honor to be recipients of such complimentary remarks, more especially in view of the great number of progressive, ably edited, splendidly made-up newspapers in Western Kentucky; and coming as it does from this peerless and ranking daily of the best section of the best state in the union.

C. L. Spillers, one of our good farmer friends on route 4, tells us he lost a \$75 cow about ten days ago and last week a \$30 mare.

THE SELECTIVE DRAFT.

(Con. from first page)

no less than to the pride of this generation in manifesting its devotion to them, that there be no gaps in the rank. It is essential that the day be approached in thoughtful apprehension of its significance; that we accord to it the honor and meaning it deserves. Our industrial need prescribes that it be not made a technical holiday, but the stern sacrifice that is before us urges that it be carried in all our hearts as a great day of patriotic devotion to obligation when duty shall lie upon every man whether he himself be registered or not, to see to it that the name of every male person of designated ages is written on these lists of honor.

"In witness whereof I have hereunto put my hand and caused the seal of the United States to be affixed. Done at the City of Washington this 18th day of May, in the year of our Lord One Thousand Nineteen Hundred and Seventeen, of the independence of the United States of America, the One Hundred and Forty-first.

By the President:
(Signed) ROBERT LANSING,
Secretary of State.

How Draft Works.

Here is the way the War Department will exercise the draft—how a man now a civilian may become a soldier within the next few months:

On June 5 he registers in the election precinct in which he resides. He goes on about his business.

After a delay of several weeks, perhaps a month or more, he is notified by the War Department either that he has been exempted from service or that he has been selected. If the latter he is told when and where to report. He reports at the time and place designated, probably a local armory, is given his equipment and transported to a concentration camp.

In case he believes he should have been exempted and was not, he is entitled to carry his case to the local federal court for settlement.

CALOMEL SALIVATES
AND MAKES YOU SICK.

Acts like Dynamite On a Sluggish Liver And You Lose A Day's Work.

There's no reason why a person should take sickening, salivating calomel when 50 cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not salivate.

Children and grown folks can take Dodson's Liver Tonic because it is perfectly harmless. Calomel is a harmless drug. It is mercury and attacks your bones. Take a dose of nasty calomel and you will feel weak, me today and you will feel weak, Don't lose a day's work. Take a spoonful of Dodson's Liver Tonic instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tonic acts better than horrible calomel your money is waiting for you. Advt.

PAYING THE TEACHERS.

The teachers of the schools in towns and cities of Kentucky have received their checks, aggregating \$102,563.20. Word comes from Frankfort that on account of the delay in the railroad franchise suits, which had been included in the estimate of school revenues for the year, the town teachers cannot get their seventh installment of salary until later.

TWO GO TO PENITENTIARY.

Sheriff Huddleston, accompanied by Hannibal Seat and Jim Kirby, went to Eddyville Monday to carry two prisoners to the state penitentiary. They were Ollie Nichols, white, sentenced to three years for malicious striking with intent to kill; Joe Martin, negro, sentenced to three years for stealing a lot of junk.

Drives Out Malaria, Builds Up System
The Old Standard general strengthening tonic, GROVE'S TASTELESS CHILL TONIC, drives out Malaria, enriches the blood, and builds up the system. A true tonic. For adults and children. 50c.

Don't fail to go to your voting place on Tuesday, June 5th and register, if you are over 21 and under 31 years of age. Failure to do so carries a penalty of one year in prison and the drafting you into the service.
